

Translate protection-as-mutualism from concept into operation. Integrate Part III into actionable infrastructure for your organization, community, or portfolio.

ORGANIZATION	DATE	FACILITATOR

QUICK START
Your First 30 Days
Action begins now — not after the workshop

WEEK 1
Complete the self-assessment

WEEK 2
Identify & reach out to three potential partners

WEEK 3
Design one pilot project with clear metrics

WEEK 4
Convene partners to create a mutual benefit agreement

I ASSESS

An honest inventory. Reaction vs. prevention spending. Centralized vs. distributed infrastructure. Threats avoided vs. conditions strengthened. Affected voices included or not.

CAPACITIES YOU HAVE *already in place*

MOST PRESSING VULNERABILITIES

RESOURCES TO COMMIT *time, capital, expertise*

POTENTIAL PARTNERS *collaborators & allies*

II BUILD THE NETWORK

One pilot with clear metrics beats diffuse efforts across many domains. Pick your entry point, then identify and convene partners.

ENTRY POINT — PICK ONE:

- **Assessment** — if you need to understand vulnerabilities

☐ **Regenerative Design** — if you know what needs fixing

□ **Capacity Building** — if you have vision but lack expertise

☐ **Policy Work** — if you need to change funding or regulation

THREE PARTNERS TO CONVENE:

Mutual Benefit Agreement – the operational deliverable

EACH PARTY CONTRIBUTES

EACH PARTY RECEIVES

HOW DECISIONS ARE MADE

HOW CONFLICTS ARE RESOLVED

III OPERATE

Those most affected get binding voice. Financing rewards resilience, not just activity.

FINANCING STRUCTURE — PICK ONE OR MORE:

- Pay-for-success

- Shared savings

- Community ownership

- Impact bonds

WHO HAS BINDING VOICE — AND HOW:

Track both outputs (what you did) and outcomes (what changed). Scale through pattern, not replication.

Outputs

Projects · people trained · investments

Outcomes

Crises prevented · trust built · systems shifted

Lock in regenerative intent. Make success visible. Contribute back to the commons.

MISSION-LOCK MECHANISM — PICK ONE OR MORE:

- Legal form

- Distributed governance

- Transparent accountability

- Long-term funding

HOW WILL YOU SHARE WHAT YOU LEARN:

DAY

90

HIGHEST IMPACT

First step tomorrow?

The 90-Day Test — If you were to implement one element of Defense as a Service in your work within the next ninety days, what would have the highest impact — and what is the first concrete step you could take tomorrow?
